

IRIE '99 IMAGER

Day 1 - Monday November 1, 1999

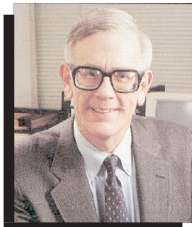

to the InfraRed Information Exchange 1999

The IRIE '99 Conference Committee want to welcome you to sunny San Diego and to the Infrared Event of 1999. Dennis, Jane and Bob have been looking forward to this opportunity to hear presentations from accomplished thermographers and industry leaders - and to seeing friends, old and new.

Please enjoy the Conference presentations and activities and do not hesitate to call on us if you have any questions, problems, comments or just to socialize.

Once again - Welcome and have a great time at IRIE '99!

Your Conference Chairman For The Day

Bob Baldwin

MAINTENANCE TECHNOLOGY

Bob Baldwin is the founding editor of Maintenance Technology, the magazine of plant equipment reliability, maintenance, and asset management, a monthly technical business publication for maintenance and reliability professionals produced by Applied Technology Publications of Barrington, Illinois, U.S.A.

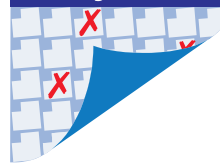

Ever since its first issue in January 1988, Maintenance Technology has been focused on providing helpful technical and business information to the managers, engineers, and technicians responsible for managing equipment assets in all industries and facilities.

Bob has been a member of the technical business press for nearly four decades. Prior to launching Maintenance Technology he spent 15 years with *Plant Engineering* magazine as Senior Editor and Managing Editor. Previously, he was editor of *California Industry* magazine and associate editor of *Western Construction* magazine published in San Francisco and associate editor of the *ACI Journal* published by the American Concrete Institute of Detroit.

He is a member of the Society for Maintenance and Reliability Professionals and other professional organizations. He holds a BS degree in Civil Engineering and a BS degree in Technical Journalism from Kansas State University.

Daily Events

Today's Agenda

Maintenance Technology Magazine - Robert C. Baldwin "In Search of Maintenance Excellence"

SDT-USA Technical Center - David Harrell "Ultrasonic Tools For The New Millenium - Predictive Maintenance and Plant Savings"

UE Systems Inc. - Alan Bandes "How Ultrasound and Maintenance Technologies Work Together"

Monterey Regional Water Pollution Control Agency - Vince Pellerin "Implementation of Predictive Maintenance At The Monterey Regional Pump Stations"

Fleet Technical Support Center, Pacific-US Navy - Curtiss Massey "Analyzing Electrical Systems With Infrared Thermography on U.S. Navy Ships"

Don't forget to meet in the hotel restaurant for lunch at 12:00!

For those of you who have not received tickets for the Thermographer's Feast or Navy Tour, but wish to attend, please see Jane. Also, if you have any questions regarding payment of your Conference Fees, Jane will be happy to answer them.

Thermographer's Feast

No - we are not cooking up a Thermographer! The Feast tonight will be a great chance to speak on a casual basis with the other Delegates, Presenters and Vendors.

The buffet will be held in the Harborview Room, with cocktails at 6:00 pm and dinner at 6:30 pm.

Tickets are still available, just see Jane if you have not already arranged to attend the Thermographer's Feast.
